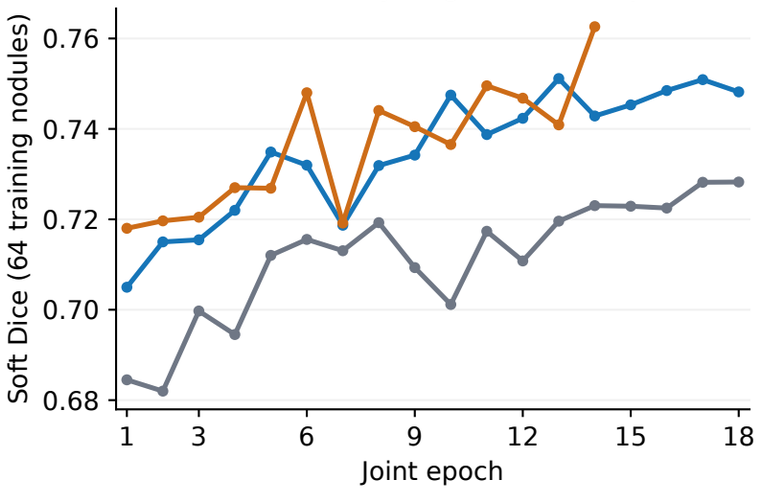
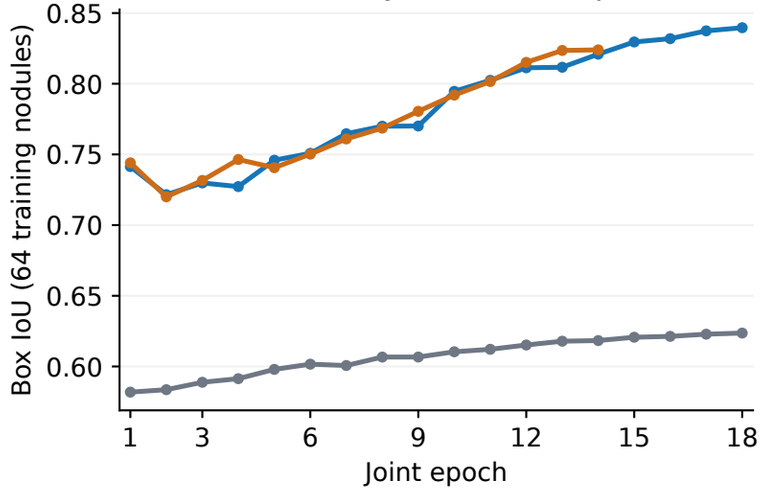
V5 training diagnostics: fixed training probes and schedules

V5 (12877415) · Extended warmup (12903757) · Warmup + mask sharpening (12955332)

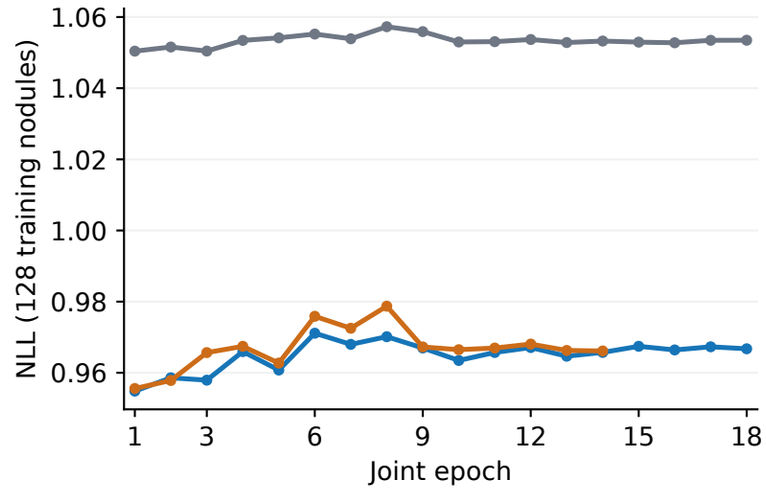
(a) Prediction-only segmentation probe



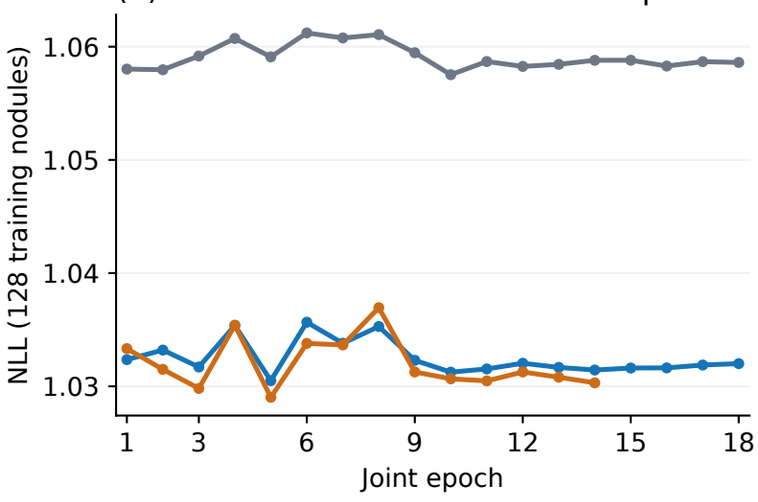
(b) Prediction-only localization probe



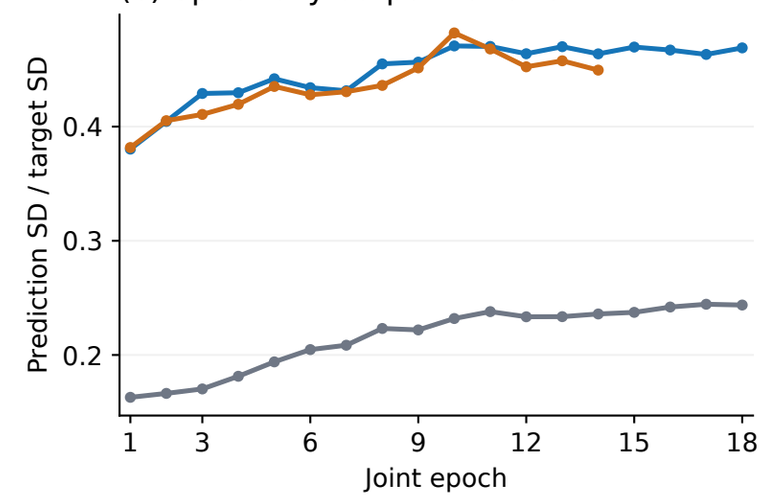
(c) Official-mask semantic probe



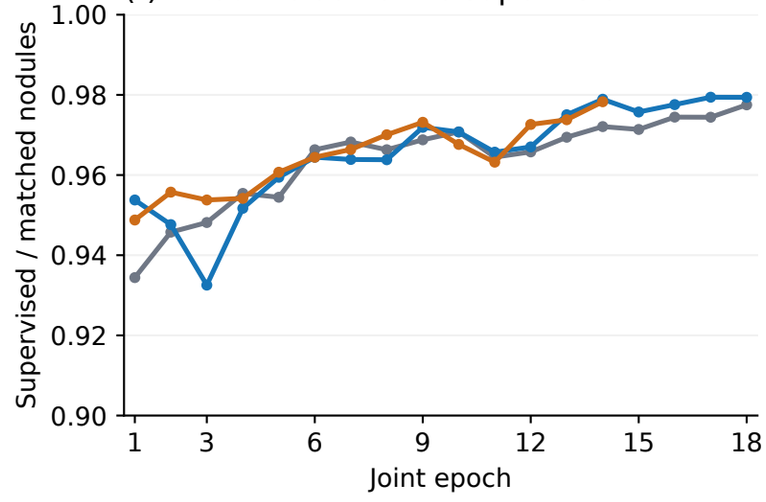
(d) Shifted official-mask semantic probe



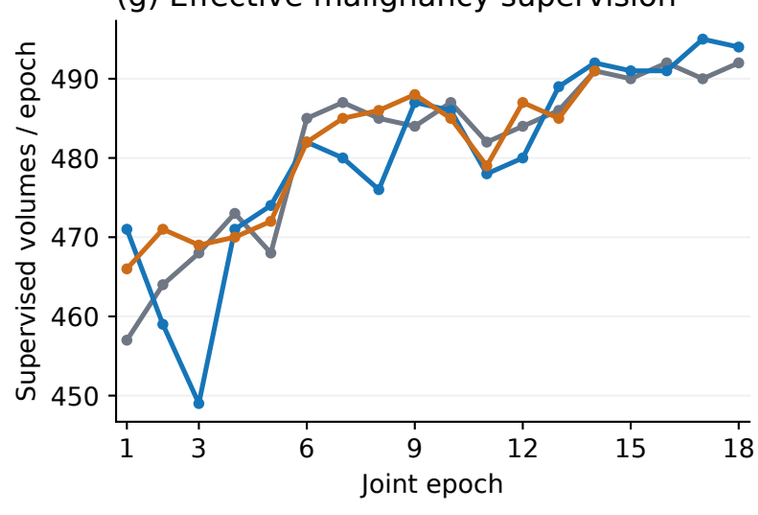
(e) Sphericity output variation



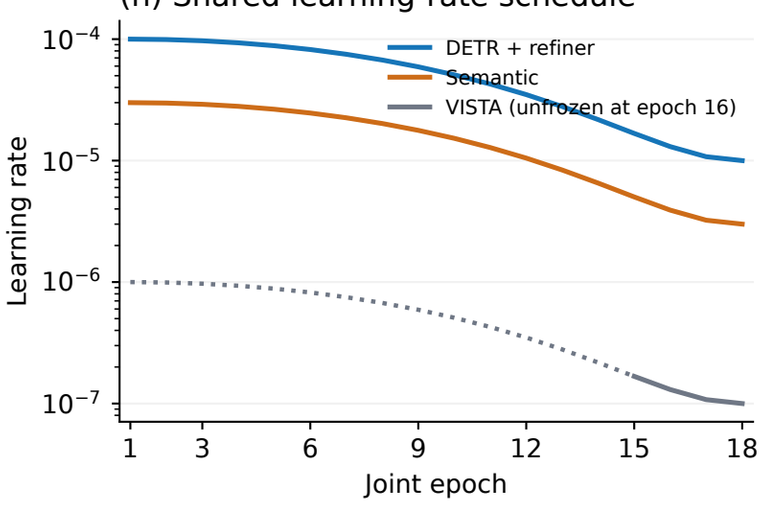
(f) Effective semantic supervision

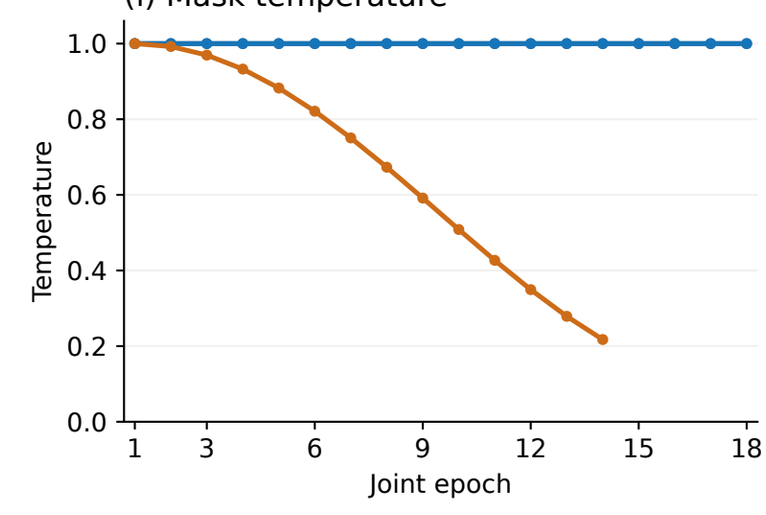


(g) Effective malignancy supervision



(h) Shared learning-rate schedule





(i) Mask temperature
